THE NAKED TRUTH ABOUT STRIP: MINISTRY OF WAXING

While you may have heard of us before, few are actually privy to the sprawling history behind STRIP. Here is the bold, bald truth.

With an international assembly of 27 stores and over two million bushes (and counting) pruned, STRIP has greatly flourished since its genesis in 2002. From conquering the market in our native island of Singapore, STRIP has since extended our arm of influence to the international realm, with a growing presence in nine cities: Singapore, New York, London, Shanghai, Hong Kong, Bangkok, Jakarta, Manila and Kuala Lumpur.

This pioneering status and revolutionary stance in the international world of waxing has affirmed our status as the undisputed waxing jurisdiction; thus sealing our title as the Ministry of Waxing.

Let's be honest, before STRIP came about, wax culture in Singapore was practically folklore. Championing a passion for innovation and a keen eye for design, STRIP's emergence rocked the vegetative state of Brazilian waxing in Singapore.

It all started with a vision. Recognising the crucial shift in body culture, STRIP made it our duty to lionise this latent revolution into a national necessity. Fastidiously shadowing the evolution of waxing, we formulated a whole new set of virtually pain-free and less embarrassing Brazilian waxing methods, making waxing a more elegant affair altogether.

We further plumped up the deal with our pioneering HSQ mantra. Symbolising STRIP's unyielding dedication to three pivotal factors in waxing: HYGIENE, SPEED and QUALITY, our revolutionary methods set the standard for the industry (and we take it as a compliment that many have since mimicked our initiatives).

Religious in our pursuit of upholding hygiene, STRIP was the first to introduce the 'No Double Dipping' commandment. This was soon followed by our Hygiene Pack – an individually sealed bag housing expendable waxing equipment (including gloves, face masks, pH balance wet wipes and spatulas) for each and every customer.

Better still, STRIP's deft waxperts can nimbly do the deed in a record-breaking 15 minutes!

Recognising that special attention must be paid to those oh-so-sensitive spots, STRIP formulated a proprietary wax that is exceptionally tender on your private bits. Apart from our resident wax, we have also produced some of the best post-wax and IPL care products. Our Bromelain-laced X'ED Out Cream is an emollient cream that wards off nasty ingrown hairs, and Ice Cream is a post-wax and IPL soothing cream that will douse any fiery sensations on your island!

Despite our global authority, STRIP has meticulously stuck to our original design guns, ensuring that every store exhibits a strong, unique identity.

This is the STRIP story thus far. Now we need you to keep it alive for us.

WHAT ARE STRIP-OLOGIES?

At STRIP, we pride ourselves with the fact that we have the HSQs – it's short for Hygiene, Speed and Quality. Here's the breakdown. Hygiene: We use gloves during the waxing process and never double dip our spatulas. Speed: We can do a Brazilian in 15 minutes flat. Quality: We use only the highest grade of waxes and post care creams, all for your comfort.

WHAT IS BRAZILIAN WAX?

Brazilian Wax is the depilation of hair from your pubic area. Don't try this at home! It takes a skilled therapist to remove the hair around your anus, perineum and vagina. For such a sensitive exercise, we suggest that you seek clearance from the experts. We use a specially formulated hard wax so you get maximum results with minimum pain.

WHAT IS IPL?

IPL works by emitting pulses of intense lamplight into the hair follicles. The light is absorbed by the pigment in the follicles and converted to heat. The heat then loosens the hair and disables the cells responsible for growing new hair. After a series of IPL treatments, your unwanted hair is dramatically reduced.
